

A close-up photograph of a woman's face, heavily adorned with multi-colored glitter makeup. Her eyes are closed, and her lips are coated in shimmering, multi-colored glitter. A single, vibrant red rose is held in her mouth, its petals also appearing to have a shimmering texture. The background is dark, making the glitter and the rose stand out prominently.

About us

Sassen has produced roses for over 30 years. Our goal is to produce the best quality modern cut roses. We grow our flowers at 3 locations, our total production area is 35.000m². Several years ago we developed our own method to paint flowers. It goes without saying that our techniques are environmentally friendly.

www.viproses.com

Marketing

All our color-treated flowers are marketed by our agent Hoven en de Mooij BV. All exporters in the Dutch flower auctions can place their orders at Hoven en de Mooij. If ordered in time, exporters will receive their order the same day.
